

# Homework

Create your own exercise and write code to provide the solution.

1. Input the text in the console
2. Check if the text of the number '0'
3. "True" If have '0' , and not "false"

Code:

```
Text=input
```

```
Result=fals
```

```
For i in range(len(text)):
```

```
    If text[i]=='0':
```

```
        Result=True
```

```
Print(result)
```
